

NECKLACE SIZE GUIDE

INSTRUCTIONS

- To get the measurements of an existing necklace, use a flexible tape measurer and measure the necklace from clasp to clasp to determine the length. (Below, you will find an illustrated chart of how the necklace may appear while worn.)
- The illustration below should be used as a reference; however, please remember that every neck is a different size and lengths will sit differently on each person depending on your neck and chest measurements.
- It is important to measure your neck to ensure length matches how you want the necklace to fit.
